

NEW UPDATED
COURSE!

Child Focused Practice Online

Recently updated and redesigned, this professional development online course has been specifically designed for front line staff working in Homelessness and Family Domestic Violence services.

The course has three short modules, containing activities and quizzes to support your learning, with a Certificate of Completion provided. This course explores the impact of homelessness and trauma on children and provides practical information about how to support children and their parents.

Child Focused Practice Online is valuable induction training for those staff who are new to the sector, as well as those more experienced staff who are developing their child focused practices within the new Alliance model.
